Dear Mr. McCafferty:

Thank you for your letter addressed to Administrator Henrietta Fore dated July 28, 2008, regarding the All-Party Parliamentary Group on Population, Development and Reproductive Health for Hearings into Maternal Mortality.

I also received the invitation and I am responding on her behalf.

USAID appreciates the opportunity to provide this submission in our ongoing dialogue with United Kingdom colleagues to reduce maternal mortality. We believe that an approach that removes barriers to maternity services especially for the poor and most vulnerable, provides quality services with high-impact interventions, and strengthens health systems is essential to accelerate progress.

Sincerely,

Kent R. Hill
